MEMORANDUM FOR THE RECORD

SUBJECT: Director's Conversation with Senator Stennis
Re Foreign Assistance Act

The Director told me today of his phone conversation this morning with Senator John Stennis, during which the Senator had indicated that he was optimistic that he could get agreement for a revision of the amendments to the Foreign Assistance Act which would limit the State Department's reporting responsibilities to matters within the jurisdiction of the appropriate committees. The Director expressed appreciation and the Senator agreed there was no necessity for them to have a meeting at this stage. Senator Stennis said he would be out of town this afternoon but would be back tomorrow.
